

Care Ministry

Our goal through Foothills Care Ministry is to provide care that is Responsive, Reliable, and Consistent. This ministry consists of two distinct approaches to insure excellent care. One is to care for those with no team or group affiliation through a dedicated Care Ministry Team and two is to insure the same level of care is provided through teams or groups where a person is affiliated.

Prerequisites: Read Love Does by Bob Goff

The intern will be able to:

Growth Opportunities in Personally Providing Care

Train, observe and practice phone counseling and prayer.

Train, observe and practice urgent, responsive counseling and prayer with a Find and Follow team.

Train, observe and practice hospital visitation counseling and prayer.

Train, observe and practice home visitation counseling and prayer.

Train, observe and practice counseling and prayer in a Funeral setting.

Team Development

Demonstrate how to recruit volunteers utilizing a "for them" not a "from them" strategy. Utilize key questions to find the best fit ministry for a person interested in serving.

Demonstrate how to train and equip new and existing volunteers to effectively care for others.

Demonstrate responsive, reliable and consistent care to all team members through personal care and leading care efforts through others.

Communication and Evaluation

Develop a communication plan for promoting Care Ministry to the congregation using online, Platform and all other means available.

Demonstrate how to cast vision to staff, leaders and congregation and volunteers for the need and purpose of Care Ministry in spiritual growth.

Determine the key measurables for Care Ministry and track and measure the effectiveness of a Care Ministry.

Care through Staff Where Affiliated on Teams or Groups

Demonstrate how to work together with staff and leaders by holding them accountable for the care of their volunteers or group members.

Demonstrate a process of coordination with staff where Care Ministries needs to augment or support their care efforts.

Managing Church Software

Demonstrate an ability to navigate FellowshipOne to make notes and run reports. Describe the importance of documentation to insure our ability to provide responsive, reliable and consistent care to all.

Demonstrate an ability to schedule multiple teams and members in the Care Ministry.
